

OUR FIRM

Palette Consulting is a **Kenyan-based** consultancy firm offering technical advisory services for humanitarian relief and development projects. Our primary **areas of expertise** include strategy development, policy development, project monitoring, reporting and evaluation, soft skills advisory services, financial and grant management, and impact and beneficiary research. Our **portfolio** includes projects in public health, water and sanitation, food security and social inclusion / governance.

Our **mission** is to support successful implementation of projects. We appreciate the important role played by **women and youth** in overall national development. We are dedicated to ensuring that all our services promote and demonstrate gender equity and youth participation.

Our **vision** is to be a leading consulting firm on women and youth issues. Our overall organizational **objective** is to provide professional and quality technical advisory services in the design, implementation and management of policy, strategy and projects focusing on improving the lives of communities. Our **core values** are excellence, integrity, honesty, cost-effective results oriented solutions, accountability, collaboration and mutual respect.

We aim to position ourselves as a **‘partner of choice’** by leveraging the latest information and communication technologies and flexible approaches to undertaking assignments for the benefit of our clients, thus making us uniquely placed.

Our **target clients** are international and national non-governmental organisations, government and public agencies, and private businesses. We believe that this group of organisations demands specialised and professional services tailored to their specific requirements.
